

Eugenio Turchet

Curriculum Vitae

Via Kennedy 104
47035 Gambettola (FC), Italy
✉ eugenio.turchet@gssi.it

Professional Goal

I aspire to hold a position that allows me to apply the mathematical knowledge acquired during my studies, with a particular interest in numerical analysis. I am passionate about exploring new experiences and continuously learning, always seeking opportunities to expand my skills in the field of mathematics and programming.

Education

- 2024–ongoing **PhD Student in Mathematics – GSSI.**
Supervisor: Prof. Nicola Guglielmi
- 2022–2024 **Master Degree in Mathematics – University of Bologna, 27/09/2024.**
Thesis: Projection methods with a probabilistic component for linear matrix equations. (Numerical Analysis)
Supervisor: Prof. Valeria Simoncini
- 2019–2022 **Bachelor of Science in Mathematics – University of Bologna, 28/10/2022.**
Thesis: Regular Sturm–Liouville problems. (Differential Equations)
Supervisor: Prof. Simonetta Abenda
- 2014–2019 **High School Diploma, Liceo Scientifico Enzo Ferrari, Cesenatico.**

Conferences and Workshops

- Participant, “Workshop on Global and Microlocal Analysis”, *Bologna*, November 28–29, 2023
- Participant, “Workshop: Sketching, Mixed Precision and Associated Algorithms for Scientific Computing”, *Bologna*, January 18–19, 2024
- Participant, “SHaCAMiGA Workshop”, *Bologna*, January 24–26, 2024
- Participant, “Mathematical Challenges in Quantum Mechanics School and Workshop”, *GSSI, L’Aquila*, February 9–14, 2025
- Participant, “Coherent Structures and (In)stabilities in Fluids”, *GSSI Workshop, L’Aquila*, April 7–11, 2025
- Participant, “Hidden Structures in Dynamical Systems, Optimization, and Machine Learning”, *GSSI Workshop, L’Aquila*, May 19–23, 2025
- Participant, “Due Giorni di Algebra Lineare Numerica e Applicazioni”, *University of Pisa*, 2025
- Participant, “Summer School on Numerical Analysis”, *University of Jena*, August 19–21, 2025
- Speaker and Participant, “GAMM ANLA 2025”, *Bologna*, October 23–24, 2025
- Guest Speaker, “Pysanum”, *University of Pisa/ Scuola Normale Superiore*, November 28, 2025

- Speaker and Participant, “27th Conference of the International Linear Algebra Society (ILAS 2026)”, *Virginia Tech, Blacksburg, VA, USA*, May 18–22, 2026

Talks and Presentations

- 24/10/2025 *Nearest Sparse Correlation Matrices via Structured Gradient Flows*, talk at GAMM ANLA 2025, Bologna.
- 28/11/2025 *Nearest Correlation Matrices with Structure: A Dynamical Systems Approach*, invited talk at *Pysanum*, University of Pisa/Scuola Normale Superiore
- 19/05/2026 *Nearest Correlation Matrices with Structure: A Dynamical Systems Approach*, talk at the *27th Conference of the International Linear Algebra Society (ILAS 2026)*, Virginia Tech, Blacksburg, VA, USA.

Outreach and Public Engagement

- 2025 Organiser and presenter at the *European Researchers' Night*, L'Aquila. Set up and managed a public outreach stand on *Optimal Transport*, presenting mathematical concepts and visual demonstrations to a general audience.
- 2026 Organiser and presenter at two editions of the *Periferie Creative* outreach event, L'Aquila. Presented mathematical aspects of optimal transport and its applications in real life.

Internship activities

- Computer programmer and 3D designer at devDept Software S.r.l., Via del Faggiolo, 1/11d, 40132 Bologna BO 04/2024-06/2024, Main works:
 - <https://devdept.zendesk.com/hc/en-us/articles/13396845937180-CAD-Drawing-Practice>
 - <https://devdept.zendesk.com/hc/en-us/articles/13910683827996-Flat-Iron-SurfaceMesher>
 - <https://devdept.zendesk.com/hc/en-us/articles/360026020053-Barbeque>
 - <https://devdept.zendesk.com/hc/en-us/articles/360025027733-Hammer-Manufacture>
 - <https://devdept.zendesk.com/hc/en-us/articles/14009029962524-Hair-Dryer>
 - <https://devdept.zendesk.com/hc/en-us/articles/13403972210972-Mount-Simulation>

Scientific interests

Numerical Analysis, Numerical Linear Algebra, Matrix Equations, Nearest Matrix problems, Matrix Analysis, Spectral Theory, Krylov Methods, Large Scale Matrices, Preconditioning Techniques, Geometric Modelling, Finite Elements.

Informatics skills

Programming languages: MATLAB, Python, C#
 Word processors: L^AT_EX, Microsoft Office, Pages
 Operating systems: Windows, MacOS
